DAHLIAS

FOR

1933

LAUREL DAHLIA GARDENS

VISITORS WELCOME

MAJOR JAMES B. EASTMAN

319 TALBOTT AVENUE

Laurel, Maryland

NOTICE

Each year we grow many new varieties but none will be found in this catalogue unless they do well for us and are worth our honest recommendation. We have no desire to sell any dahlia that we would not grow ourselves. This is your guarantee.

All stock is delivered at any time desired and guaranteed to be first class.

TERMS OF SALE

CASH BEFORE DELIVERY

Since we are under contract on all new 1933 introductions, no stock will be shipped until fully paid for, nor can we consider any exchanges or other propositions on any of these new introductions.

We will be glad to answer any questions regarding the best methods of growing any dahlia that we introduce and stand ready to aid in every way we may be able.

The two greatest winning seedling dahlias, AMELIA EARHART and LA FIESTA, are originated by Mr. J. F. Cordes of Santa Monica, California. These dahlias were winners in every show on the east coast from New York to Richmond.

We are introducing these dahlias for Mr. Cordes in the east, and root stock will be available only from the originator and ourselves.

All of Mr. Cordes dahlias will be introduced by us in the future and we promise some real wonders.

AMELIA EARHART
HONOR ROLL
CORDES - - - EASTMAN

The outstanding new dahlia of the year. One of the largest dahlias grown, 13x8, under ordinary culture. Flowers maintain size and closed centers the entire season. Very artistic flower, Coral, Semi-Cactus stem and plant growth perfect.

This dahlia has proved to be the greatest prize winner of the present year and although in the seedling class, it has met and defeated the very best dahlias. We predict that it will be by far the greatest winner of next year's shows.

Originated by Mr. J. F. Cordes of Santa Monica, California, and named by special permission of Miss Earhart.

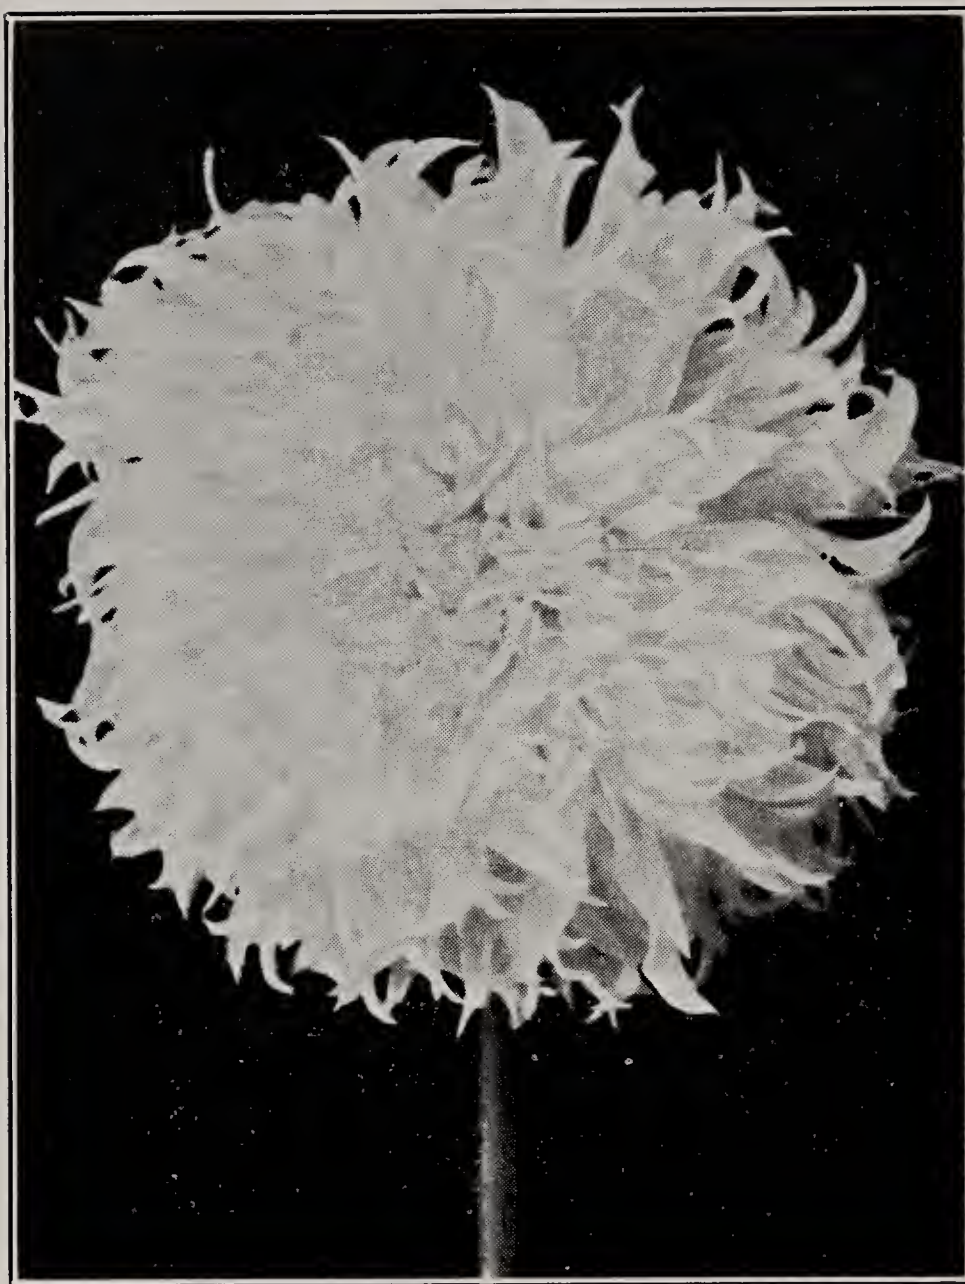

1932 SHOW RECORD

American Home Achievement medal at New York and Baltimore, Maryland, for best undisseminated seedling. Best Semi-Cactus seedling at Atlantic City, New York and Los Angeles, California. Best three year seedling, Baltimore, Bryn Mawr, Washington and Richmond. Largest and best flower in show at Baltimore and Washington. Semi-Cactus, open to all, Camden. Best seedling in show, New York.

Stock limited.

LA FIESTA

HONOR ROLL

CORDES - - - EASTMAN

A huge informal Decorative of butter yellow penciled red. A true variegated dahlia made up of a mass of lacy petals that curl and twist so that the flower looks like a great chrysanthemum. The plant is about four and a half feet high and the flowers are held high above the foliage. No forcing is necessary for size and we discourage it. The flower is naturally big 11x8, and will win many prizes next year in the largest flower class as well as in the variegated and Informal Decorative classes.

Won for largest and best flower in show, Los Angeles, California, 1931. Best Informal Decorative Seedling, New York, 1932. Won over 26 entries for best bloom of undisseminated seedling, Camden, 1932. Best vase variegated, Los Angeles, California, 1932. Best single bloom of seedling, Richmond, 1932.

Plants \$5.00

LONG HILL

An origination of Gustave Lotze. A seedling of Jane Cowi, but we consider it more beautiful and the flower faces on the stem, large in size and fine of form. An Informal Decorative with the petals curled and twisted, a combination of gold and rose shadings with a yellow center and rose reverse.

The plant is a strong grower and very prolific bloomer. Dark green foliage that is insect resistant. Very fine for cutting and a great dahlia for exhibition. Long, strong stems.

Won at Baltimore for best Maryland origination.

We have had this dahlia on trial in the garden of Mr. Derrill W. Hart and he reports that it has been one of the best dahlias in his garden during the season.

Also on trial at the trial ground of the University of Kentucky and the report is that the dahlia has been very fine and a most prolific bloomer and that it is much admired by all seeing it.

HILLCREST MANDARIN

HONOR ROLL

SCOTT - - - EASTMAN

A beautiful new Informal Decorative of huge size with perfect stems and fine growth. A very prolific bloomer and a dahlia that insects do not bother.

The color is Pirate Red with Amber reverse and the petals twist and curl so as to make a mixture of red and amber.

While we are writing this on October 28th, our plants are full of blooms and every one is a real exhibition bloom. Dr. Scott seems to have a way of breeding real dahlias and when we received our stock this spring, we immediately sent a plant to Mr. Hart for trial. The dahlia made good and we are sure that you will like this unusual color and we predict that it will hold a definite place in the shows of the next year.

HILLCREST ROYALIST

HONOR ROLL

SCOTT - - - EASTMAN

A huge Informal Decorative on excellent stems. The color as given in the new Mertz and Paul Dictionary of Color is Shades of Indiana with Clover reverse. However, we will call it a Rose Magenta of almost solid color. The growth is perfect and the stems are strong and rigid.

This dahlia has also been on trial at the gardens of Mr. Hart and it has made good both in his garden and at the University of Kentucky. A real exhibition dahlia.

TEDDY JOHNSON. Rose pink, shaded white. A beautiful miniature and a most prolific bloomer. Fine for shows.

Roots 50c

We grow most of the latest introductions as well as many of the standard older ones, but we will not list them this year. Will be glad to quote prices on roots or clumps.

We will quote clump prices on the following varieties: Commodore, Girl of Hillcrest, Willamette, Good Night, Maryland Orange, Rudy Vallee, Full Moon, Lees Perfection, Indiana Moon, City of Wellston, W. H. T., Kathleen Norris, Helen Burroughs.

DAHLIA SEED

We again offer dahlia seed, California grown by Mr. Cordes and the same seed that has produced such prize winners as Amelia Earhart and La Fiesta and many others. This seed is taken from the best of the latest introductions as well as from older well known seed parents. The percentage of double flowers will run fully 80% and we are sure that no better seed can be had.

We have received numerous letters telling about the success of this seed and have never had a single complaint.
